GENERAL INFORMATION

HP Spartacote's decorative vinyl color chips, flakes or fleck are specially blended paint & mica aggregates used for Sparta-Chip™ and Sparta-Chip™ PURE seamless, resin-based chip/flake flooring systems. This unique product is random in shape, sized within a standardized range and custom blended to match any décor.

Designed to increase durability and longevity while offering a high quality finish, our vinyl chips continue to gain popularity amongst architects, designers, contractors and consumers. They allow for customization to commercial, residential and industrial floors with an endless range color-styles, texture, size and blending options.

FEATURES & BENEFITS

- Available in standard vinyl as well as MICA
- Good flexibility & strength
- Renewable & Sanitary
- Easy to install
- Non-flammable
