

ENDURABLE

CONCRETE STAIN™

- **Easy to apply (unlike acid stains)**
- **Penetrates (unlike acrylic stains)**
- **Non-hazardous, low VOC/odor (unlike acid stains)**
- **Excellent color choices (unlike acid stains)**
- **High coverage rates (unlike acid or acrylic stains)**
- **Concentrated to optimize shipping and shelf space (unlike acid or acrylic stains)**
- **Mixes with water or acetone (unlike acid or acrylic stains)**
- **Excellent longevity (unlike acrylic stains)**
- **Excellent light fastness (unlike dyes)**
- **Infinite looks possible by various application techniques (unlike acid stains)**
- **Contains no binders which eliminate the “bond-breaker” potential for subsequent sealers (unlike acrylic stains)**

Color samples for representation only - actual colors may vary

“Having had the opportunity of using the ENDURABLE PRODUCTS, we are very excited at the performance of both the color stain and water-based sealant for longevity and ease of use.”
