

Husqvarna PG 280

*PG 280 is a single disc grinder with edge grinding function on both sides, making it a multi purpose machine. It is convenient to use as the operator can walk upright behind the grinder. The machine is light, compact and easy to transport and set-up.
Available mid-July/2014.

VERSATILE

PG 280 is developed with edge grinding function as standard which gives a multi purpose machine. Easy and convenient to use with ergonomic handle bar which can be set for an upright edge grinding.

EASY TO USE

Easy to use as the speed is fixed and no settings are required. The machine also has a user friendly logical control panel (HMI) with overload protection

EFFICIENT DUST MANAGEMENT

Efficient dust management thanks to the self adjusting floating cover with brush list, which follows the surface and gives a tight seal to prevent the dust from entering the working environment.

EXCELLENT FOR EDGE GRINDING

The lid cover on both left and right side are removable for easy conversion to edge grinding on both sides. It is easy to use and no tools required
