

BARREL MOUNTED SPRAYER

SOLUTIONS THAT LAST

BARREL MOUNTED SPRAYERS

The **BMS74/75** and **BMS95** mix and spray water based curing and sealing compounds and form release agents for concrete applications. The BMS74/75 features a 7.5 gpm roller pump and will handle up to 25% solids efficiently. The BMS95 utilizes a 9.5 gpm diaphragm pump for handling heavier particulate loads to 35%.

Both sprayers are housed in an extra wide, heavy duty protective cage. The sprayers are easily locked to a 55 gallon drum or can be used in conjunction with the Easy Load Cart. No lifting is required... heavy 55 gallon drums are simply rolled onto the tilt bed of the Easy Load Cart and secured with a winch strap. The cart rolls on pneumatic tires and rubber castors for use on green concrete without damaging the slab.
