

Power Trowel Polishing:

Use your trowel machines for more than flatwork and finishing. You have options...

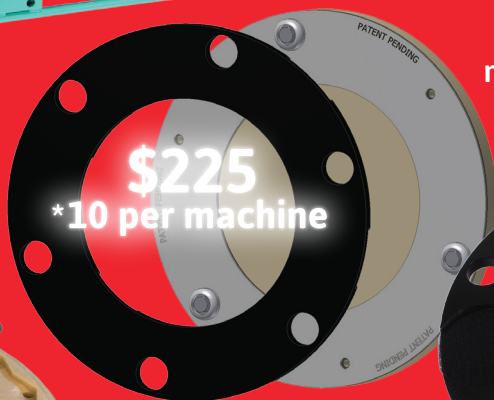

**Multiquip HHXDF5
8' Dual Fuel Ride-On
Trowel Machine**
\$28,500

**Multiquip Easy
Mover Dolly**
\$1,300

Option 1: Magnetic Preload Polishing System

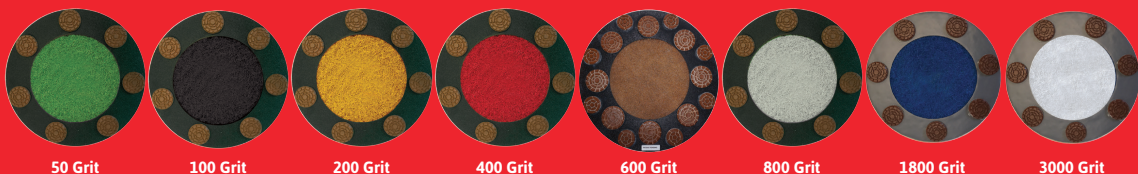

Retrofit your trowel machine with a rotary mount system, pad drivers and magnetic preload so your customers can use it to polish with Runyon 3" velcro-backed Wet Slicks.

Option 2: Diamond Pad Polishing System

Attach 10 rotary mount systems and pad drivers, in place of blades, to polish with 14" diamond pads.

\$125 per pad (*10 per machine)

Option 3: Trowel Pan & Pad Restoration

Hook (2) 46" power trowel pans onto trowel blades. Attach velcro backers to pans. Then press on 46" white, red or black pads. This system is ideal for large square footage restoration or chemical application processes.
