

# SAFETY DATA SHEET

# 1. Identification

Product identifier	Rapid Set Levelflor	
Other means of identification		
Product code	187010050	
Recommended use	Industrial use.	
Recommended restrictions	Workers (and your customers or users in the case of resale) should be informed of the potential presence of respirable dust and respirable crystalline silica as well as their potential hazards. Appropriate training in the proper use and handling of this material should be provided as required under applicable regulations.	
Manufacturer/Importer/Supplier	/Distributor information	
Company name Address Telephone E-mail Contact person Emergency telephone	CTS Cement Manufacturing Corporation 11065 Knott Ave Suite A Cypress, CA 90630 United States 1-800-929-3030 info@ctscement.com Safety Officer 1-800-929-3030 (8 AM - 5 PM)	
number		
2. Hazard(s) identification		
Physical hazards	Not classified.	
Health Hazards	Skin corrosion/irritation	Category 2
	Serious eye damage/eye irritation	Category 1
	Carainaganiaity	Cotogon (1A

Serious eye damage/eye irritation Carcinogenicity Reproductive toxicity Specific Target Organ Toxicity, Single Exposure Specific Target Organ Toxicity, Repeated Specific Target Organ Toxicity, Repeated Exposure Share of the total series of total series of the total series of to

OSHA defined hazards

Label elements

Signal word	Danger
Hazard statement	Causes skin irritation. Causes serious eye damage. May cause cancer. May cause respiratory irritation. May cause damage to organs (Lungs) through prolonged or repeated exposure.
Precautionary statement	
Prevention	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe dust. Wash thoroughly after handling. Use in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection.
Response	If exposed or concerned: Get medical advice/attention. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If on skin: Wash with plenty of water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse. If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a poison center/doctor if you feel unwell.
Storage	Keep container tightly closed. Store in dry location.

# 3. Composition/information on ingredients

Chemical name		CAS number	%
Calcium Sulfoaluminate Cement		960375-09-1	12-38
Silica, quartz		14808-60-7	42-64
Limestone		1317-65-3	7-20
Vinyl Acetate – Ethylene Cop	olymer	NA	0-8
Composition comments	All concentrations are in percent by weig percent by volume.	ght unless ingredient is a gas. Gas	s concentrations are in
4. First-aid measures			
Inhalation	If dust from the material is inhaled, remo physician if symptoms develop or persis		ly to fresh air. Call a
Skin contact	Remove contaminated clothing. Wash w medical advice/attention. Wash contami		in irritation occurs: Get
Eye contact	Do not rub eyes. Immediately flush eyes contact lenses, if present and easy to do		
Ingestion	Immediately rinse mouth and drink plent Get medical attention if symptoms occur		d take these instructions
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Upper respiratory tract irritation. Coughing. Discomfort in the chest. Shortness of breath. Wheezing. Skin irritation.		
Indication of immediate medical attention and special treatment needed	Provide general supportive measures an Symptoms may be delayed.	nd treat symptomatically. Keep vic	tim under observation.
General information	If you feel unwell, seek medical advice ( personnel are aware of the material(s) ir this safety data sheet to the doctor in at	volved, and take precautions to p	
5. Fire-fighting measures			
Suitable extinguishing media	Water fog. Foam. Dry chemical powder.	Carbon dioxide (CO2).	
Unsuitable extinguishing media	Do not use water jet as an extinguisher,	as this will spread the fire.	
Specific hazards arising from the chemical	During fire, gases hazardous to health n	nay be formed.	
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and	full protective clothing must be wo	orn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you ca	n do so without risk.	
			volved materials.

## 6. Accidental release measures

•••••••••••••••••••••••	
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe dust. Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels exceeding the exposure limits. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Stop the flow of material, if this is without risk. If sweeping of a contaminated area is necessary use a dust suppressant agent which does not react with the product. Collect dust using a vacuum cleaner. Minimize dust generation and accumulation. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains or water courses.
7. Handling and storage	
Precautions for safe handling	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Provide appropriate exhaust ventilation at places where dust is formed. Minimize dust generation and accumulation. Do not breathe dust. Do not get this material in contact with eyes. Avoid prolonged exposure. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Store in dry location. Store away from incompatible materials (see Section 10 of the SDS).

# 8. Exposure controls/personal protection

#### **Occupational exposure limits**

#### US. OSHA Table Z-3 (29 CFR 1910.1000)

PEL	15 mg/m3	Total dust.
	5 mg/m3	Respirable fraction.
	15 mg/m3	Total dust.
Туре	Value	Form
TWA	20 mppcf	
	0.3 mg/m3	Total dust.
	0.1 mg/m3	Respirable.
les	2.4 mppcf	Respirable.
-	Туре	5 mg/m3         15 mg/m3         Type       Value         TWA       20 mppcf         0.3 mg/m3         0.1 mg/m3         2.4 mppcf

Components	Туре	Value	Form	_
Silica, quartz (CAS 14808-60-7)	TWA	0.025 mg/m3	Respirable fraction.	

#### **US. NIOSH: Pocket Guide to Chemical Hazards**

Components	Туре	Value	Form
Silica, quartz (CAS	TWA	6 mg/m3	Respirable dust.
14808-60-7)	TWA	0.05 mg/m3	

Biological limit values	No biological exposure limits noted for the ingredient(s).
Exposure guidelines	Occupational exposure to nuisance dust (total and respirable) and respirable crystalline silica should be monitored and controlled.
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Ventilation should be sufficient to effectively remove and prevent buildup of any dusts or fumes that may be generated during handling or thermal processing. If engineering measures are not sufficient to maintain concentrations of dust particulates below the Occupational Exposure Limit (OEL), suitable respiratory protection must be worn. Eye wash facilities and emergency shower must be available when handling this product.
Individual protection measures, s	such as personal protective equipment
Eye/face protection	Wear safety glasses or safety goggles unless full face respirator is in use.
Skin protection	
Hand protection	Wear appropriate chemical resistant gloves.
Other	Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.
Respiratory protection	Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels exceeding the exposure limits.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	When using, do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Observe any medical surveillance requirements.

# 9. Physical and chemical properties

Appearance	
Physical state	Solid.
Form	Powder.
Color	Gray.
Odor	Low.
Odor threshold	Not available.
рН	11 – 12 when wet
Melting point/freezing point	Not applicable.
Initial boiling point and boiling range	Not applicable.
Flash point	Not applicable.
Evaporation rate	Not applicable.
Flammability (solid, gas)	Non combustible.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	Not applicable.
Flammability limit - upper (%)	Not applicable.
Vapor pressure	Not applicable.
Vapor density	Not applicable.
Relative density	2.7-3.1 @ 20°C
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not applicable.
Auto-ignition temperature	Not applicable.
Decomposition temperature	2460 °F (1350 °C)
Viscosity	Not applicable.

Other information	
Bulk density	60 lb/ft <sup>3</sup>
Partition coefficient (oil/water)	Not applicable.
VOC (Weight %)	11 g/l when mixed with water
10. Stability and reactivity	
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Avoid temperatures exceeding the decomposition temperature. Contact with incompatible materials. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air).
Incompatible materials	Powerful oxidizers.
Hazardous decomposition	Carbon oxides. Sulfur oxides. Silicium oxide.

# 11. Toxicological information

products

#### Information on likely routes of exposure

Inhalation	May cause damage to organs through prolonged or repeated exposure by inhalation. Inhalation of dusts may cause respiratory irritation. Prolonged inhalation may be harmful.
Skin contact	Causes skin irritation. Prolonged contact with wet cement/mixture may cause burns.
Eye contact	Causes serious eye damage. Prolonged contact with wet cement/mixture may cause burns.
Ingestion	Swallowing may cause gastrointestinal irritation.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Upper respiratory tract irritation. Coughing. Discomfort in the chest. Shortness of breath. Wheezing. Skin irritation.

#### Information on toxicological effects

Acute toxicity	May cause respiratory irritation.
Skin corrosion/irritation Serious eye damage/eye irritation	Causes skin irritation. Causes serious eye damage.

#### Respiratory or skin sensitization

Respiratory sensitization Skin sensitization Germ cell mutagenicity	No data available. No data available. No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
Carcinogenicity	May cause cancer. In 1997, IARC (the International Agency for Research on Cancer) concluded that crystalline silica inhaled from occupational sources can cause lung cancer in humans. However in making the overall evaluation, IARC noted that "carcinogenicity was not detected in all industrial circumstances studied. Carcinogenicity may be dependent on inherent characteristics of the crystalline silica or on external factors affecting its biological activity or distribution of its polymorphs." (IARC Monographs on the evaluation of the carcinogenic risks of chemicals to humans, Silica, silicates dust and organic fibres, 1997, Vol. 68, IARC, Lyon, France.) In June 2003, SCOEL (the EU Scientific Committee on Occupational Exposure Limits) concluded that the main effect in humans of the inhalation of respirable crystalline silica dust is silicosis. "There is sufficient information to conclude that the relative risk of lung cancer is increased in persons with silicosis (and, apparently, not in employees without silicosis exposed to silica dust in quarries and in the ceramic industry). Therefore, preventing the onset of silicosis will also reduce the cancer risk" (SCOEL SUM Doc 94-final, June 2003) According to the current state of the art, worker protection against silicosis can be consistently assured by respecting the existing regulatory occupational exposure limits. Occupational exposure to respirable dust and respirable crystalline silica should be monitored and controlled.

IARC Monographs. Overall E	valuation of Carcinogenicity		
Silica, quartz (CAS 14808-60-7)		1 Carcinogenic to humans.	
NTP Report on Carcinogens			
Silica, quartz (CAS 14808-60-7)		Known To Be Human Carcinogen.	
	Substances (29 CFR 1910.10	01-1050)	
Not listed.			
Reproductive toxicity	May damage fertility or the unborn child.		
Specific target organ toxicity - single exposure	May cause respiratory irritation.		
Specific target organ toxicity - repeated exposure	May cause damage to organs (Lungs) through prolonged or repeated exposure.		
Aspiration hazard	Due to the physical form of the product it is not an aspiration hazard.		
Chronic effects	Prolonged or repeated exposure may cause lung injury, including silicosis. May cause skin disorders if contact is repeated or prolonged.		
12. Ecological information			
Ecotoxicity	•	environmentally hazardous. However, this does not exclude the t spills can have a harmful or damaging effect on the environment.	
Persistence and degradability	No data is available on the deg	radability of this product.	
Bioaccumulative potential	No data available.		
Mobility in soil	No data available.		
Other adverse effects		al effects (e.g. ozone depletion, photochemical ozone creation global warming potential) are expected from this component.	
13. Disposal consideration	S		

Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

The waste code should be assigned in discussion between the user, the producer and the waste

# Waste from residues / unused<br/>productsDispose of in accordance with local regulations. Empty containers or liners may retain some<br/>product residues. This material and its container must be disposed of in a safe manner (see:<br/>Disposal instructions).Contaminated packagingEmpty containers should be taken to an approved waste handling site for recycling or disposal.<br/>Since emptied containers may retain product residue, follow label warnings even after container is<br/>emptied.

Dispose in accordance with all applicable regulations.

# 14. Transport information

**Disposal instructions** 

Hazardous waste code

Local disposal regulations

#### DOT

Not regulated as dangerous goods.

#### IATA

Not regulated as dangerous goods.

#### IMDG

Not regulated as dangerous goods.

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and

the IBC Code
