ENDURABLE CONCRETE DYE

- May be mixed into water, acetone, or denatured alcohol
- Liquid form allows product use immediately after mixing (no wait time, unlike powdered dyes)
- High coverage rates of 400 to 600 square feet per gallon
- Goes completely into solution, which allows deepest penetration for best performance in polished concrete
- Concentrated to optimize shipping costs and shelf space
- Vibrant color options
- Colors may be mixed to create an infinite number of colors

ENDURABLE CONCRETE HARDENER

- Water-based
- Zero VOC content
- Non-toxic
- Safe to handle
- Does not require agitation
- Does not require hazardous material disposal
- Improves performance of concrete
- Improves appearance of concrete
- Extends life of concrete
- Increases surface hardness
- Increases compressive strength
- Helps to repair damaged or soft concrete

- Does not leave discoloring salt deposits
- Compatible with Endurable Concrete Dye and Endurable Concrete Sealer
- Works well with overlay products typically low in time
- Lower PH than silicates
- Fast reaction times - typically less than 1 hour
- No overnight curing process
- Concentrated to optimize shipping and shelf space
- May be applied to new concrete 2 or 3 days after pour
- Silica particle size less than 6 nanometers
- Colloidal silica is able to bond to silica present in concrete
- Product has the ability to bond to itself, unlike silicates
- Increases abrasion resistance
- Increases moisture resistance
- Enables polishing process
- Reduces dusting
- Reduces efflorescence

ENDURABLE CONCRETE SEALER

This sealer is burnishable to a high gloss, mirror-reflective finish. It will outlast any polish-guard product on the market, reducing the arduous maintenance on polished floors. It's durability and chemical resistance is unmatched by any other polish-guard product.

- Easy to apply
- Low VOC content
- Low odor
- Heavy duty
- Perfect for forklift traffic and other commercial applications
- Excellent UV stability - will not yellow or degrade in sunlight
- Anti-graffiti - excellent resistance to multiple solvents
- Safe for countertop use
- Excellent chemical resistance
- Excellent durability and scratch resistance
- Excellent resistance to hot tire pickup
- Excellent versatility allows for interior and exterior use. May be used on residential and commercial applications
- Excellent coverage makes product very cost effective
