

A product brand of LATICRETE International, Inc.

Sparta-Stain™

decorative flooring

System Features & Benefits:

- High gloss, satin or matte finish
- Available modeled or variegated finish
- Stain resistant
- Superior durability over acrylic or epoxy-based concrete sealers
- Optimal substrate adhesion

Incorporates liquid dispersed concrete dyes with Sparta-Flex clear sealers for a highly artistic, yet durable surface. Often considered an alternative to polished concrete in situations requiring superior chemical and stain resistance.

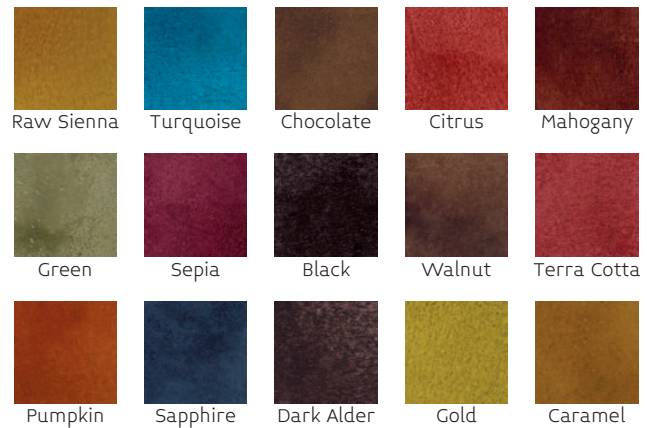

| System Variations | Overall Thickness | Applications |
|-------------------|-------------------|--|
| Sparta-Stain | 8 mils DFT | Decorative concrete requiring above average chemical & abrasion resistance |
| Sparta-Stain PURE | 12 mils DFT | Green-friendly decorative concrete dye & seal with minimum odor and 0 VOCs |

Coverage & Material Usage Guide

| Layer | Code | Description | Coverage |
|------------------------------|---|------------------------------------|---------------|
| Sparta-Stain Concrete Dye | 401-415 | Abstract Concrete Dye (5oz bottle) | 400 sq ft/btl |
| | <i>Note: Disperse Abstract Concrete Dye into 1 gal water or acetone</i> | | |
| Mid Coat | 115 | Sparta-Flex Pigment Base Kit | 330 sq ft/gal |
| Top Coat | 160-173 | Reactint Pigment Pack | 330 sq ft/gal |
| | 100 | Sparta-Flex Clear | 3 oz/gal |

Note: Sparta-Flex Clear may be substituted for Sparta-Flex Low Gloss

| Layer | Code | Description | Coverage |
|-----------------------------------|--|-------------------------------------|---------------|
| Sparta-Stain PURE Concrete Dye | 401-416 | Abstract Concrete Dye (5 oz bottle) | 400 sq ft/btl |
| | <i>Note: Disperse Abstract Concrete Dye into 1 gal water</i> | | |
| Mid Coat | 201, 202 | Aqua-Flex WB/FC Clear | 200 sq ft/gal |
| Top Coat | 140 | Sparta-Flex PURE Clear | 200 sq ft/gal |
| | 350-352 | Sparta-Grip Traction Additive | 3 oz/gal |

Recommended Surface Preparation: CSP 2-3, grind or shot blast, just no acid etching.

Recommended Maintenance: Regular floor washing, depending upon floor traffic, with a pH neutral cleaner. Simple Green diluted with water works well.
