ENGINEERED DESIGN

- The RSP Q8 10-Seg Tool is an ideal initial step in the polishing process, one that is not considered prep
- The tool achieves a small to medium size aggregate exposure
- The Q8 10-Seg tool has a higher diamond content than others on the market
- The diamond matrix is comprised of premium metals
- Easily identify the type of grit or bond with the number of dots on the front of the tooling and its color

16 GRIT
