

GEN-23P-US-480 – 23kW 480 volt generator (Available in 2020)

- * Electric Start
- * Electronic Fuel Injection - No choke, just turn the key to start.
- * Powers 120 v and 480 3 ph Simultaneously.
- * Magnetic based alternator eliminates all computer boards.
- * 15 gallon fuel tank for all day run.
- * Simplified control panel layout.
- * Built in rpm gauge and hour meter.
- * Small footprint makes it easy to load in to trailers or freight elevators.

Specifications:

Engine:	Vanguard EFI 37hp Air Cooled
Output:	23 kW 480 volt 3 phase and 3 kw auxiliary 120 volt
Dimensions: Length -	36" (43" with handle)
Width -	25"
Height -	36" (40" with lifting bale)
Weight:	410 lbs (dry)
Noise Level:	82 DBA no load
Fuel Capacity:	15 Gallons
Run Time:	50% Load - 10 hrs 75% Load – 8 hours
