

**DUST EXTRACTOR**

**T 4000 PETROL**

Husqvarna T 4000 Petrol is an advanced petrol dust extractor developed to manage large amounts of dust. The intuitive controls make the dust extractor easy to start and operate. It is equipped with the Jet Pulse Filter cleaning system, which purges the filter with negative air pressure to effortlessly and safely clean the filter. The machine is designed to stay durable even in tough conditions thanks to its corrosion-resistant steel components.

Combine your T 4000 Petrol dust extractor with the PG 400 Petrol floor grinder and you have a perfect match for outdoor floor prep applications. No power cables ensure even better mobility on the job site and more time to work on the project at hand.

**Easy and efficient filter cleaning**

The Jet Pulse filter cleaning system ensures high continuous airflow thanks to easy and efficient cleaning of the conical main filter without opening the machine.

**Efficient filtration system**

The three separate filtering stages result in longer working time between filter cleaning. The dust is filtered through a cyclone chamber, which separates the heaviest particles, up to 95% of the dust, before the washable main filter.

**Clean and simple bag change**

The Longopac<sup>®</sup> bag hose system ensures simple changes of the bag without any dust spills.

**HEPA FILTER INSIDE**

**Easy and intuitive controls**

The controls are easy to locate and control. The yellow light warns the user when the clutch is engaged.

**Powerful engine**

Powerful and durable engine with electrical start and option to manually pull start it.

**Easy to read air-flow monitoring**

Alerts you when the filter needs to be cleaned or changed.

**High Efficiency Particulate Air filter**

Individually tested and certified HEPA micro filters catching 99.99% of the remaining silica dust in the respirable fraction (0.3µm).

**TECHNICAL SPECIFICATIONS**

Engine Manufacturer	Honda
Engine Power, HP (kW)	10.2 (76)
Max air-flow CFM/h (m <sup>3</sup> /h)	285 (484)
Max Vacuum, kPa	26
Water lift, in	104
Main hose diameter, in (mm)	2.5 (63)
Main hose length, ft (m)	33 (10)
Additional hose, diameter x length	2.0"x25ft (51x7.5)
HEPA-filter % @0.3µm	>99.99
HEPA-filter, qty	2
Starter	Electric
Running time per tank	~40 min
Weight, lbs (kg)	453 (203)
