ENGINEERED DESIGN

- The RSP 6 is a medium-platform planetary grinder designed for coating removal, surface prep, and concrete polishing
- Its heavy-duty, gear-driven three-head system delivers exceptional production rates
- Ideal for small to midsize projects or residential polishing
- The grinder comes fully equipped with LED lights, weight kit, a lifting strap with clevises, Redilock plates, full-face Velcro plates, and a tool kit with a voltmeter
- These comprehensive features make it one of the most efficient and complete packages available on the market today
